SDD learn to write computer applications in Java and the .NET languages. Here is collection of Preliminary and HSC major projects produced by our SDD students.

MyIP - A simple Windows tool for finding out your IP address.

Ten Pin Bowling - Obviously a bowling game. More challenging than it looks though.

Minesweeper - The classic Windows game written in Java for cross-platform fun.

BeatBox - A modified version of Sierra and Bate's midi sequencer.

Triplets - A fun and simple game where the object is to avoid getting three in a row.
